 **Safety Area**
Keep important information in this area

Colours note

Colour management will be done on a "best effort" basis for the chosen specified Pantone Colours (PMS). If the file is a vector with no PMS provided or an image, it will be printed in a full-colour process (CMYK). We cannot be held responsible for colour control when printed in "CMYK." Please note that the colours might appear differently when printed on different substrates and be brighter when exposed to sunlight.

All Custom-Made Products are non-refundable.

Colour - Pantone Solid Coated (PMS C)
(This is an example, please replace them by your colour choice)

-  PMS 298 C
-  PMS 226 C
-  PMS Black C
-  4 colour process
(when the file is an image or in opacity colours)
